## Therapy and Fun Offers

Dance/Movement Therapy  
Occupational Therapy  
Social Group  
Speech-Language Pathology

## Our Scope

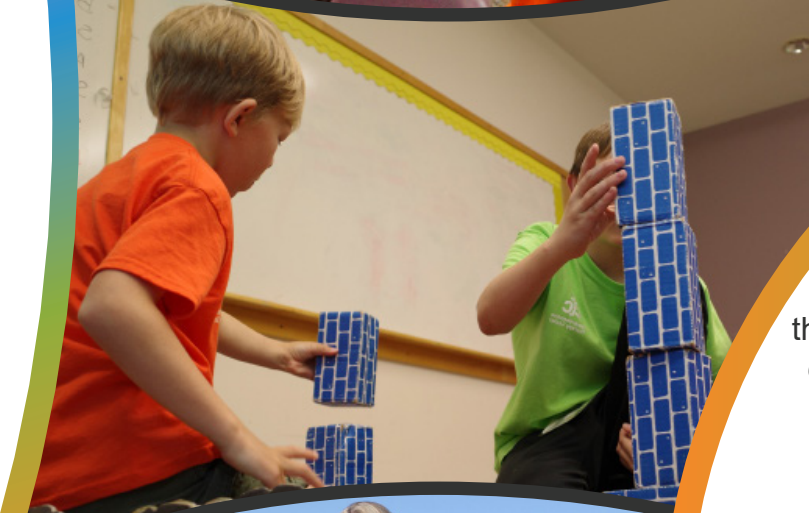

We serve children with a variety of developmental differences. Many have multiple diagnoses including ADHD, apraxia, autism, cerebral palsy, cognitive impairments, developmental delays, Down syndrome, genetic disorders, and feeding issues.

Prior to Therapy and Fun, a screening appointment with you, your child, and our therapists will help us understand your child's unique needs. We are also interested in maintaining your child's continuity of care with their therapists and educators.

*"You can tell they [CTC] really care and we love Ms. Rhonda, Ms. Sarah, Ms. Jan, Ms. Jessica and everyone involved. They work hard and it feels like a family."*
