

# Comprehensive Therapy Center

Helping children walk, talk, learn and play

Since 1982, Comprehensive Therapy Center (CTC) has helped neurodiverse children get the therapy they need to walk, talk, learn, and play. We use a holistic, play-based approach that includes resources and activities for families to feel confident and involved in all areas of their child's growth. Much of this is done through our summer program, Therapy & Fun. While the primary goal of Therapy & Fun is to help children with disabilities keep up with therapy goals during the summer, the program's impact extends to their families and communities.

## Who We Serve

CTC provides resources to individuals ages 18 months to adult with developmental disabilities, learning differences, and diagnoses received (or acquired) in childhood.

### Primary Disabilities of Clients Served:

- ADHD
- Anxiety
- Autism Spectrum Disorder
- Cerebral Palsy
- Childhood Muscular and Neurological Disorders
- Cleft Palate
- Depression
- Disruptive, Impulse-Control and Conduct Disorders
- Down Syndrome
- Emotional Impairments
- Fetal Alcohol Syndrome
- Hearing Impairments
- Intellectual Impairments
- Obsessive-Compulsive Disorder
- Sensory Processing Disorder
- Stuttering
- Trauma

Any many others.

## How We Serve

Through programming like Therapy & Fun, Therapy & Life Skills, Staycation, CTC Games, Diversity in Healthcare, and Therapeutic Play and Learn Groups (funded by Ready By Five), we are able to create better community access to resources. Our clinic provides access to therapeutic services including speech therapy, occupational therapy, dance-movement therapy, and counseling. School contracts allow us to help schools fill gaps in their special education teams by providing them with therapists, social workers, and teacher consultants.

## Meet Cylas.

"From even the assessment we were blown away," said his mother, Becky, "[We] Had no idea what to expect and then it was a room with 8 people who just really wanted to get to know Cy and so it was awesome!" At Therapy & Fun, Cylas was able to improve his speech, motor skills, handwriting and more! Preparing him for the school year ahead.

"... how you guys serve in so many different avenues is incredible," said Becky, "Not only is it a place for Cylas, it is a place for volunteers and social work and for students to learn... It's like you found every possible way to serve by doing this."

***When you donate to CTC, you support our programming and help children like Cylas to walk, talk, play, and learn.***

## Our Reach

Every month, CTC serves approximately 1,000 individuals. The therapy we offer during our summer program costs roughly \$9,320 per child. Insurance only covers a portion of this. This year, we were able to provide \$75,000 in scholarships for Therapy & Fun, and \$25,000+ in scholarships for clinic services thanks to donors like you!

By supporting CTC, you are also provided with the opportunity to be seen by our stakeholders. The number of people we reach each month through all forms of social media is steadily increasing, and donating to CTC will result in the opportunity to be tagged and recognized through all our available channels for your generosity. Our newsletter reaches over 3,500 households. Our Social Media reaches over 6000 individuals.
